

OUR WORLD WAS CHANGED FOREVER ON MAY 9, 2001.

On that historic Wednesday, over 20 military, intelligence, government, corporate and scientific witnesses came forward at the National Press Club in Washington, DC to establish the reality of UFOs or extraterrestrial vehicles, extraterrestrial life forms, and resulting advanced energy and propulsion technologies. The weight of this first-hand testimony, along with supporting government documentation and other evidence, will establish without any doubt the reality of these phenomena.

The Disclosure Project is a nonprofit research project of the Center for the Study of Extraterrestrial Intelligence (CSETI) working to fully disclose the facts about UFOs, extraterrestrial intelligence, and classified advanced energy and propulsion systems.

The disclosure of the truth will have far-reaching implications for our society – new technologies to end pollution and global warming, long-term solutions to the energy crisis, and the beginning of an era of peaceful relations with other civilizations in space. We have over 400 government, military, and intelligence community witnesses testifying to their direct, personal, first hand experience with UFOs, ETs, ET technology, and the cover-up that keeps this information secret.
