Memorandum

From: Steven M. Greer, MD – Director of The Disclosure Project.

To: President Donald J. Trump

Re: The UFO/UAP subject

Since the 1950s, the UFO/UAP subject has been handled by a corrupt deep state transnational organization whose power has grown to a level that it is an imminent threat to national security and international peace and security.

This organization is a hybrid of unconstitutional deep state and government compartmented operations and corporate special projects. It has reverse-engineered non-human intelligence (NHI) craft and is operating man-made advanced technologies at parity with NHI technologies. These human technologies are currently being used in a number of criminal operations including assassinations, abductions, human/drug/ weapons trafficking, embezzlement of US government funds, acts of treason and have the capability to simulate a fake alien attack at any moment.

I have debriefed over 700 government and corporate whistleblowers over the past 35 years and have documented their information in the Briefing Document provided to your staff.

The following Executive Orders are urgently needed.

1. Explicit whistleblower protection specifying both legal amnesty and personal security.
2. An Executive Order authorizing a TS-SCI SAP with significant funding currently configured under law enforcement to stand down these illegal operations and especially the illegal use of electromagnetic pulse weapons (EMP) currently being used against NHI craft as these actions imperil the future of humanity
3. An Executive Order requiring all such UFO/UAP operations to be fully disclosed within 6 months or those responsible will be vigorously prosecuted.
4. An Executive Order to authorize an advanced diplomatic team to make peaceful contact with the NHI civilizations.
5. An Executive Order authorizing the review and release of Advanced Technology (AT) held by this criminal organization that would create total energy independence for the US and would begin a new energy economy with which the US would lead the world economically.

Please feel free to contact me at any time. I am the world's leading expert on this subject. There is not a distant second. I will provide any assistance, advice and evidence that you and your administration require.

Respectfully yours,

Steven M. Greer MD
